

INTRODUCTION

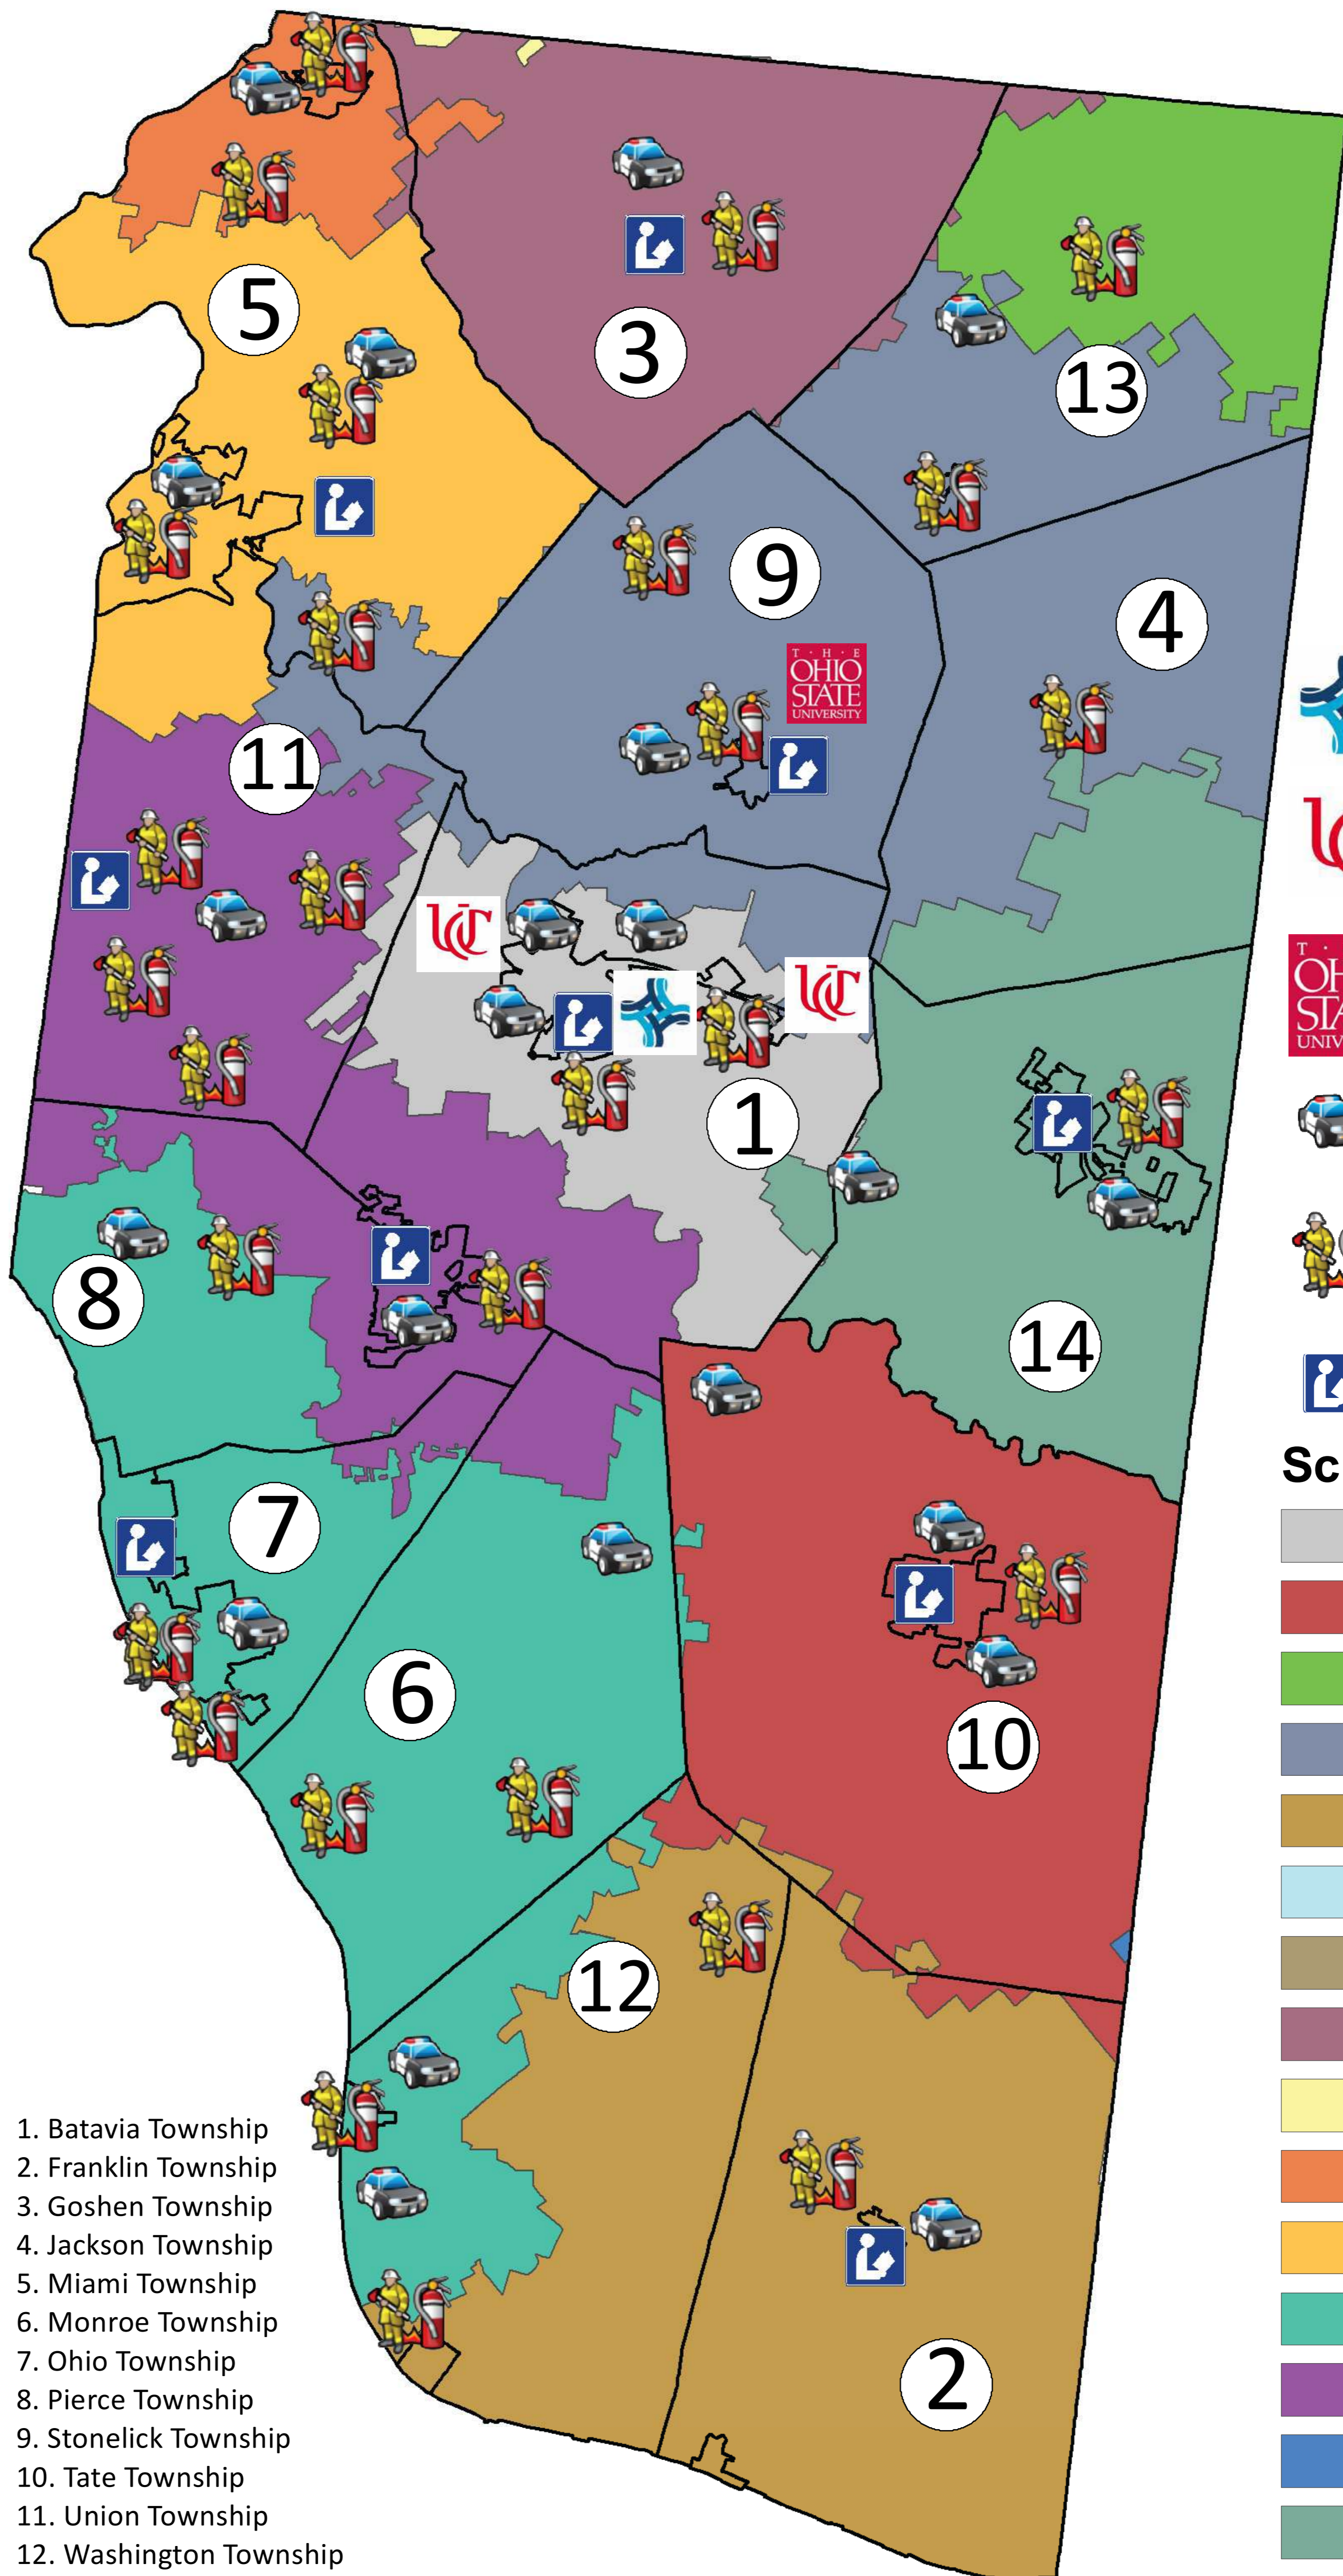

One of the fundamental tasks of planning is to ensure that county residents have appropriate public services and infrastructure systems and those services and systems are able to meet the needs of future population growth.

Public Facilities outlined in this chapter:

- Local School Districts
- Libraries
- Fire Departments and Emergency Medical Services
- Police Departments
- Hospital Facilities
- Radio Communication and Dispatch Operations
- Sanitary Sewer and Water Treatment
- Parks and Recreation

A goal of the county is to encourage sharing of facilities and services when appropriate.
